

## **BAKED BEANS**

*Feeds 50 men or 60 men and women.*

Start with 3 gallons Bush's Baked Beans (they are the best as they are firmer beans). Add 1 pound of light brown sugar. Steam together 1 large sweet onion, diced, and 1 large bell pepper, diced, until tender. Drain well. Add onion and bell pepper mixture with 1/2 cup yellow mustard to the beans. Add 1/2 cup Worcestershire sauce, 1/2 cup soy sauce, 2 (32 oz.) containers of ketchup, 2 lbs. of bacon, cut into small pieces and fry. Pat off grease.

Mix all. Simply warm to serve. Be cautious not to cook and stir constantly as the beans will break apart. A large roasting pan works the best to warm up the baked beans prior to serving.
